Sys96 Rods

Confetti - 1/2 oz. #600500 \$4.95

Fractures are paper thin shards of glass. *They are not subjected to the same standards most fusible products are; thus are not labeled as tested compatible and should only be used in thin sections rather than heavily layered.*

Available in white, red, blue & pink opal, and aquamarine & cranberry pink cathedral.

We carry a large selection of Moretti Rods (COE 104). Please note, these rods ARE NOT compatible with the Sys96 family of products.

When ordering regular Moretti rods please use the catalog #MORREG and quote the desired color. When ordering Moretti Filigrana rods please use the catalog #MORFIL and quote the desired color.
