Accepts all Inland accessories and over 30 bits. 5 year warranty. Weighs 7 lbs.

Inland Wizling CG #718118 \$129.95

Features a thermally protected 1/18 HP motor rated for 3,450 RPM and 15 oz.-in. torque, a 9" x 10" reversible work surface, a lift off easy cleaning water reservoir, 2 sponges, 1 bitsert, a splash guard and a 3/4" WB-1 grinding bit. Accepts Inland accessories and over 30 bits. 5 year warranty. Weighs 5-1/2 lbs.

Glastar G-12 Super Star II #32290 \$179.95

This grinder is a favorite with the serious hobbyist. The G-12 Super Star II features a sturdy housing with a handy storage drawer, rubber stopped drain system, splash guard, 3/4" & 1/4" bits. The 1/12 Motor is rated for 3,450 RPM and 19 oz.-in. torque.

Glastar G-14 Diamond Star #32480 \$159.95

A practical and affordable grinder featuring a sturdy housing and storage drawer, 3/4" grinder bit, 3 sponges and splash guard. The 1/18 HP motor is rated for 14 oz.-in. torque. Glastar quality at an affordable price.

Glastar G-8 All Star #30800 \$329.95

A professional quality glass grinder with an extra large 11" x 13" work surface, special mini-surface with a water pump to cool the 1/4" grinder head, a convenient stoppered reservoir water drain, straight edge guide and an 8" x 9" glass eye shield with support. Everything's here ... there's nothing else to buy! The All-Star is equipped with a 1/9 HP motor which provides a whopping 42 oz.-in torque! Dish it out ... the All-Star can take it!

Gryphon Gryphette Grinder #010931 \$99.95

The Gryphette offers the best value in a glass grinder today. The small enclosure houses a surprisingly powerful DC motor. Even when using 1" diamond bits, it is virtually impossible to stall the motor. The Gryphette is the perfect grinder for the occasional glass artist, student or classroom. The very low cost and convenient size will be appreciated by everyone who does not require the features of a larger grinder. Five year limited warranty.

Gryphon Twister Grinder #010931 \$239.95

The Gryphon Twister offers a revolutionary advance in comfort. By simply rotating the base, the grinding surface converts from horizontal to inclined. For the first time, you can sit while grinding. Even if you stand, the inclined work surface reduces fatigue because you no longer need to stoop over your work to see what you are doing. This model will accept the Gryphon Slip-on Bits or any standard bit as well. An automatic pump supplies a constant flow of water directly to the bit regardless of saw orientation. Because of the way the water is directed onto to the bit, there is virtually no splash. Five year limited warranty.

Power Max II Grinder #420178 \$169.95

The ultimate fusion of power & affordability. The Power Max II features a 1" & 1/4" chrome hardened "Silver Bullet" bits, a 9-1/2" worksurface, a powerful 1/10 hp motor and an industry leading 6 year warranty. *Specifications: 1/10 HP motor; 10.5" x 10.5" x 6.5", 7 lb chassis; 9.5" worksurface.*

Diamond Max Two-in-One Grinder #420510 \$269.95

The Diamond Max is the first grinder to continue to combine a flat 6" diamond grinding disk with a router-style bit. Both the 1" bit and the 6" disk run simultaneously ~ meaning there is no wasted time spent switching back and forth. The system also includes the 30°/45° "Bevel Block" for perfect boxes and panel lamps, special anti-cease lubricant and an industry leading 6 year warranty. *Specifications: 1/8 HP motor; 10.5" x 10.5" x 10.5" & 10 lb. Chassis; 9.25" x 9.25" worksurface.*

Bevel Max Grinding & Beveling System #420116 \$499.95

Now you can create your own custom bevels, or re-bevel and polish damaged bevels efficiently and affordably. The Bevel Max system includes the Max Grinder base unit, 6" diamond grinding disk, 15 & 60 micron laps, polishing pad, polishing compound and anti-cease lubricant. It also features the Max Splash Shield with a secondary water delivery system and an in-depth "How-to-Bevel" video. Protected by Diamond Tech's industry leading 6 year warranty. *Specifications: 1/8 HP motor; 10.5" x 10.5" x 10.5" & 10 lb. Chassis; 9.25" x 9.25" worksurface.*

Replacement Work Surfaces

Over time the grinder surface becomes worn and pitted from contact with the sharp, uneven edges of unground glass. A replacement surface makes the grinder look new and facilitates smoother grinding. We carry replacement surfaces for most models we sell. Call for pricing & details.

Glastar Eye Shield Support #718810 \$22.95

Adapts to most grinders. Accepts any size glass to create a crystal clear viewing surface that won't scratch or discolor.

Grinder Accessories

- Glastar Step-Up #718760 \$26.95**
- Inland Step-Up #718315 \$26.95**
- Diamond Tech Step-Up #718720 \$24.95**

Provides convenient raised work surface for use with 1/8" & 1/4" detailing bits. Built in water reservoir.

The grinder is the biggest investment you will make in stained glass tools, so take some care and protect your investment. Always keep the reservoir clean and filled with cool water when in use. Be sure to add a capful of grinder fluid each time the water reservoir is filled. Lubricate the grinder shaft with Teflon grease or petroleum jelly each time you replace the bit, and be sure to periodically move the bit to make full use of its grinding surface.
