Bottle), Studio Pro Running Pliers, EDCO 7/32 Copper Foil (36 Yard Roll), Old Master's Flux (8 oz. Bottle) and a Glass Marking Pen.

**Did you Know ... ?**

Churches were known to have stained glass windows as early as the 5th century, but stained glass really hit its mark in the Middle Ages, particularly from 1150-1250. Within churches, walls were eliminated in favor of stained glass. One reason for this explosion of interest was that the illumination provided by these windows was regarded as symbolic of divine light.

**"The Committed Artisan" Hobby Kit**
